

RESTAURANT PROJECT SHEET

JACKSONVILLE, FLORIDA

INTUITION ALE WORKS

SIZE

36,000 SQ FT

COST

\$5,375,000

ARCHITECT

**DESIGN
COOPERATIVE, LLC**

DESCRIPTION

Auld & White Constructors was retained by Intuition Ale Works to complete the buildout for its new location in Downtown Jacksonville. The project features a complete brewery system, commercial kitchens on the first and second floors, taproom, private dining/event space, a rooftop bar, and garage-style doors, allowing patrons to enjoy Florida's climate while watching their favorite sports teams. Additionally, a sliding to-go window was integrated for tailgating purchases. Extensive architectural restoration work was executed to align with the original 1940's building structure and aesthetic. Intuition Ale Works offers patrons an unparalleled experience, merging unique cuisine with a selection of over 20 meticulously crafted small-batch ales.
